

MIT Academy of Engineering (An Autonomous Institute)	CA Activity No-2	
	ACADEMIC YEAR	2025-26
Alandi (D), Pune – 412105	SEM / TRI	II
DEPARTMENT OF SOFTWARE ENGINEERING.	CLASS & DIVISION / BLOCK	FY B.Tech-ALL

ACTIVITY NAME	AI Capacity Building-Anthropic Online Courses		
COURSE	CREATIVE TECHNOLOGIES (2301183)	Lab Activity NO.	02 (Two)
COURSE INSTRUCTORS	VINAYAK KULKARNI & TEAM	DATE	24-03-2026

STUDENT NAME	UDAY MADANKAR	PRN	202501030039
TRACK	Pr(14)	TRACK TEACHER	Priyanka Nalawade

Que. No.	Question Description/ Design Problem Statement	Marks	CO No.	BT Level
Q1	Please read assignment statement below , the students have to complete 04 AI Online courses and submit the Reflection report in prescribed formaty (pdf) on Moodle	10	CO1 CO3	L3

(Remark: Course Instructor to add assessment rubrics for each assignment)

RUBRICS:

Criteria	CO Addressed	Completion of Course (10 Marks)	Incompletion of Course(0 Marks)
Activity Completion (07 Marks) & Reflection Report (03 Marks)	CO3	Completion of all 04 courses, produced course completion report (07 Marks)	- Student not registered to course - Not completed all 04 Courses - Not completed all course activities
		Produced Report and evaluated by Track Teacher (03 Marks)	Simply Not completed the course , without showing the appropriate work, which is to be graded, will also be awarded a score of "0."

ASSESSMENT:

23/4/25	08		PR-07
Date	Marks (10)	Sign of Track Teacher	Name of Track

INSTITUTE LEVEL SUBMISSION LINK:

(Only Certificates)

<https://docs.google.com/forms/d/e/1FAIpQLSe4WDc8BfCFWov7iGRm27fRy1SPqQ5pfSk7pA9eWT794NqK7A/viewform?usp=publish-editor>

(** Every student will upload certificates in pdf with above mentioned Link)

Instructions:

1. Complete this word file Activity report Template
2. Take Hardcopy of this report, get sign & Grade (10) from Track Teacher
3. Submission on Moodle. (Pdf Format).
4. All FY students appearing for course Creative Technologies must do this submission individually.
5. Submit certificates only to institute level link
6. Submit this report to track teacher for grading
7. Submission at both places is mandatory for getting CA marks (Do not forget)

(Vinayak B Kulkarni)
Course Instructor
Sign with Date

CA ACTIVITY STATEMENT

(Course Outcome (CO1)- Articulate the significance of United Nations Organization (UNO) Goals. [L2] & (CO3)- Illustrate the use cases of emerging technologies. [L2].)

INTRODUCTION:

Under AI Capacity Building Initiative taken by our institute every student

- registered for the course CREATIVE TECHNOLOGIES (2301183) must complete following AI course for Lab Activity No 2 (10 Marks)

These Foundational AI Training courses are Suggested by Anthropic Academy

- (<https://www.anthropic.com/learn>)

ANTHROPIC ACADEMY COURSES

Sr. No.	Course Name	Duration	Objectives	Anthropic Certification	Anthropic Academy Link
01	Claude 101	1 to 2 Hours	□ Kickstart AI fluency, □ master Claude's core features, □ structured prompting, & everyday productivity gains	Completion Quiz	https://anthropic.skilljar.com/claude-101/c
02	AI Fluency: Framework & Foundations	01Hour	□ Embed the 4D AI Fluency Framework □ institution-wide equip every stakeholder to collaborate with AI effectively, efficiently, ethically, and safely. Empower students to harness	Quiz-based certification	https://anthropic.skilljar.com/ai-fluency-framework-foundations
03	AI Fluency for Students	01Hour	□ AI responsibly for academic excellence — from smarter research and career planning to ethical AI collaboration.	Reflection + Quiz	https://anthropic.skilljar.com/ai-fluency-for-students
04	AI Fluency for Nonprofits	1 to 2 Hours	□ Equip mission-driven professionals to amplify social impact using AI without compromising values, ethics, or community trust.	Completion certificate	https://anthropic.skilljar.com/ai-fluency-for-nonprofits

Certification Procedure: [Certification based on Quiz]

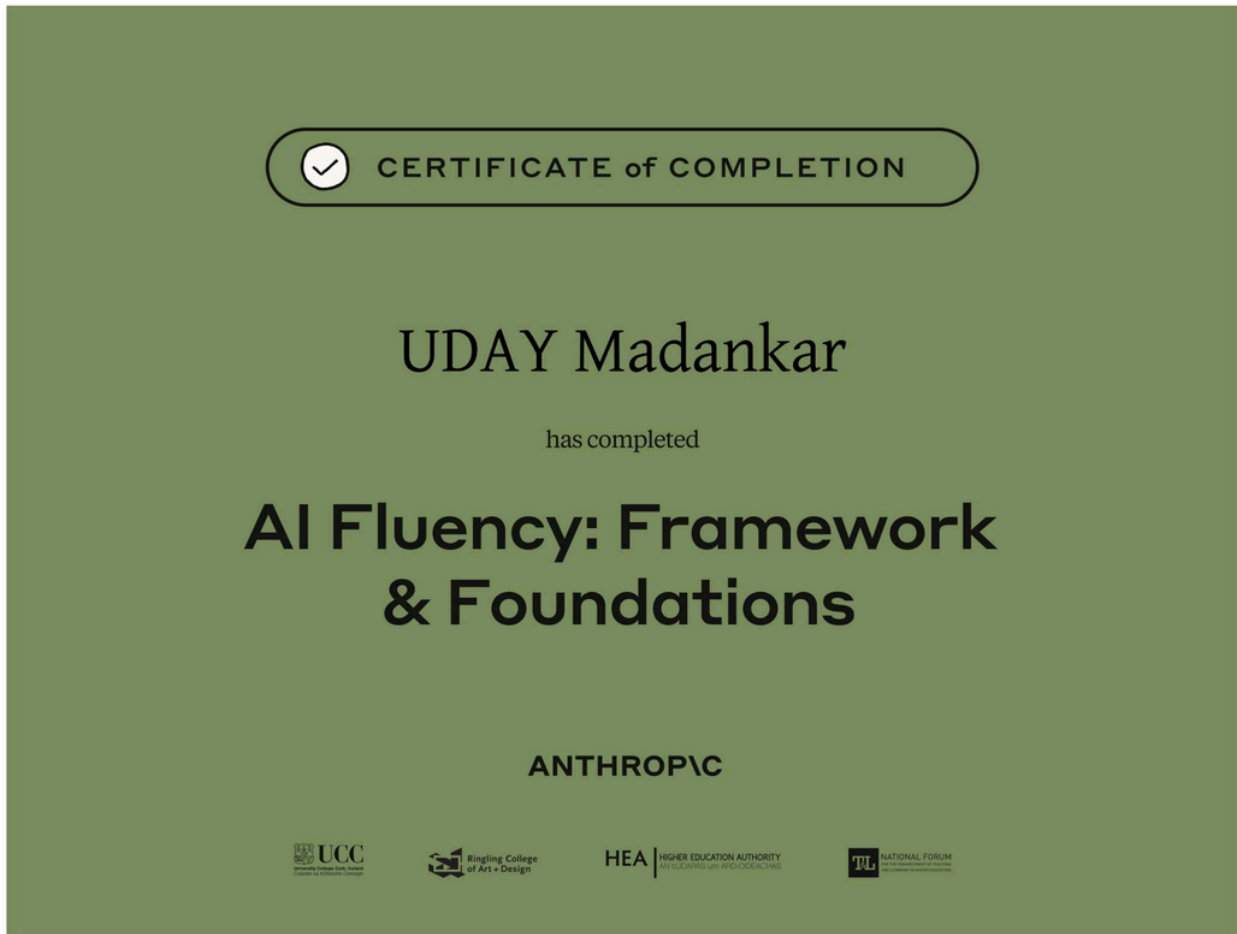

- Click on Link given above , register for course
- Provide name and other details correctly
- Complete activity by watching videos, Make notes
- Complete assessment activity like Quiz

☐ Download certificate

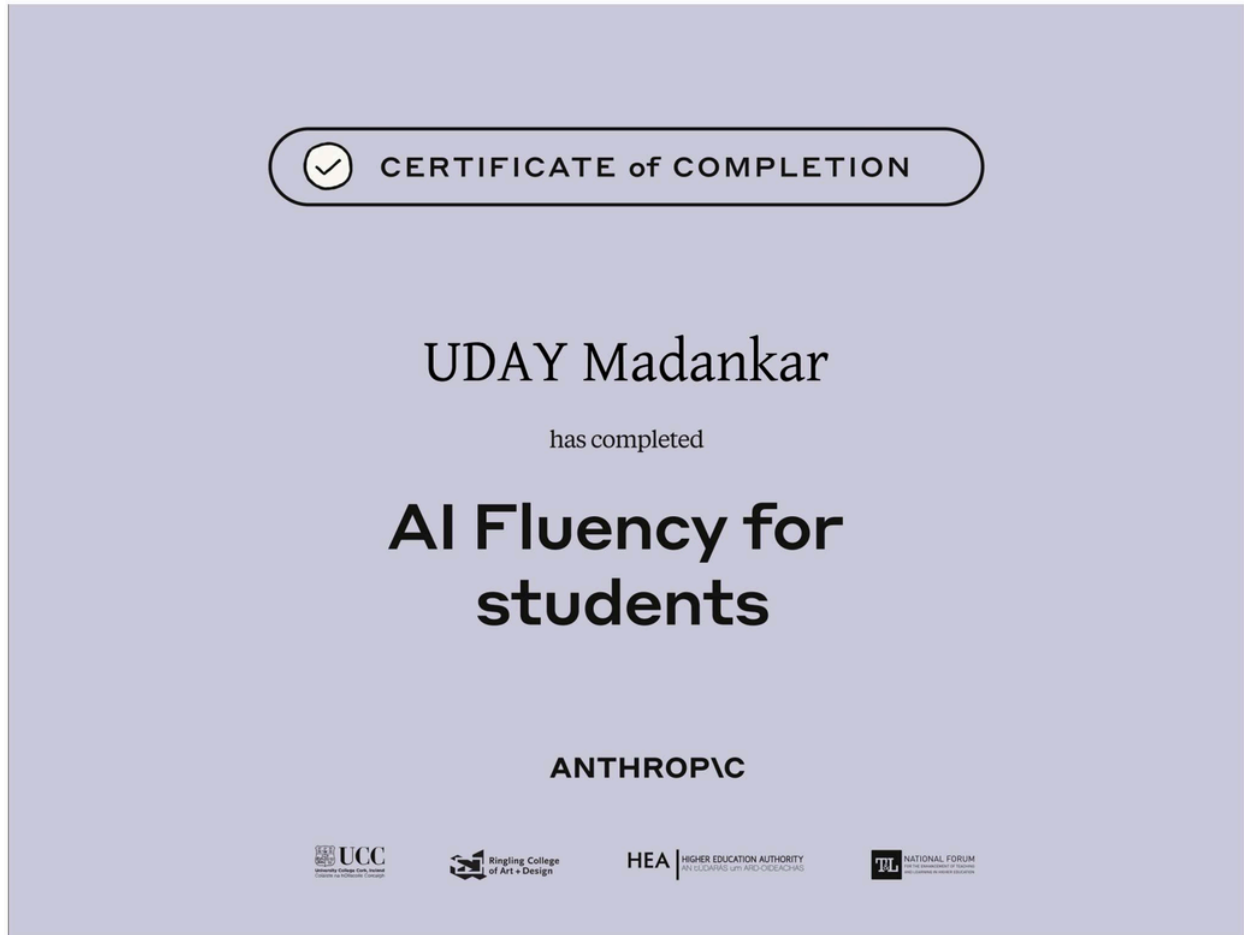

Submission Report
(Certificate for Course No 1 - Claude 101)
(Attach Certificate snapshot here)

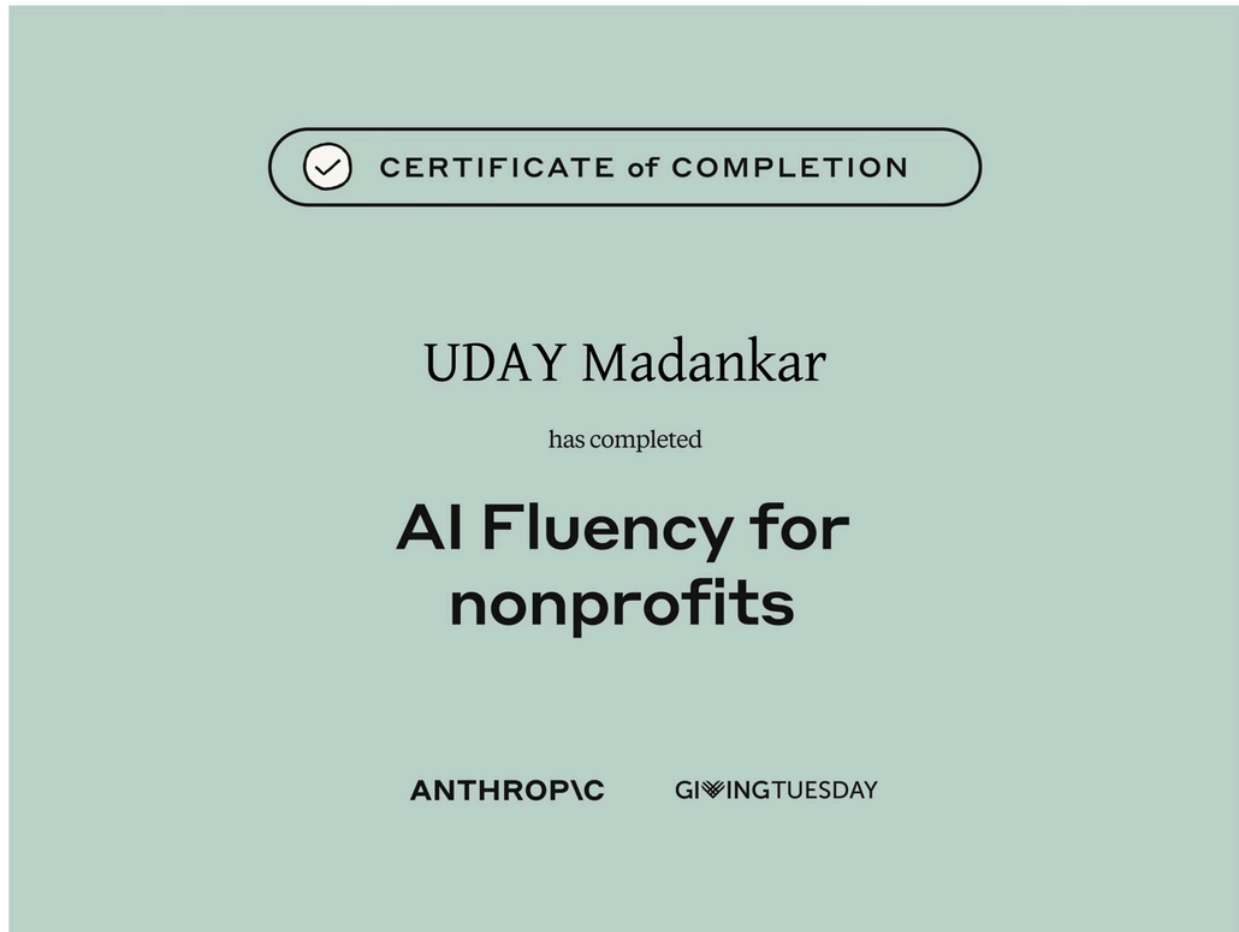

Submission Report
(Certificate for Course No 2 - AI Fluency:
Framework & Foundations)
(Attach Certificate snapshot here)

Submission Report
(Certificate for Course No 3 - AI Fluency
for Students)
(Attach Certificate snapshot here)

Submission Report
(Certificate for Course No 4 - AI Fluency
For Nonprofits)
(Attach Certificate snapshot here)

Reflection Report on Online AI courses

(Write one page report on course wise learning and your Understanding through these courses in your own language)

Introduction Under the AI Capacity Building Initiative for our Creative Technologies course, I completed four foundational AI training modules through Anthropic Academy. While I frequently use AI platforms for analytical purposes and to supplement my learning, these courses provided a much-needed structured approach to engaging with artificial intelligence ethically and effectively. Here is my reflection on the four modules.

1. Claude 101 This was a highly practical module for me. Usually, I use AI to help analyze complex engineering topics or suggest learning resources when I'm stuck on a concept. Learning structured prompting was a major takeaway. Instead of asking vague questions, I learned how to give the AI proper context so it can provide precise, educational breakdowns on the first try. This makes my self-study sessions much more efficient and helps me grasp difficult subjects faster.

2. AI Fluency: Framework & Foundations This module explored the 4D AI Fluency Framework and the broader ecosystem of artificial intelligence. As a student, it is easy to view AI just as a quick search engine. However, this course emphasized that AI is a system that requires safe and ethical collaboration. It reinforced the idea that whether I am analyzing data for a lab or researching a topic, I need to use these tools responsibly and critically evaluate the suggestions they provide, rather than blindly trusting the output.

3. AI Fluency for Students Balancing first-year engineering classes and academic projects is challenging, and this video provided excellent, realistic strategies for using AI to support academic excellence. It highlighted how to use AI responsibly for smarter research, organizing study notes, and brainstorming ideas. It perfectly validated my goal of using AI strictly as a tutor and analytical guide to optimize my time, ensuring it enhances my learning rather than replacing my own critical thinking.

4. AI Fluency for Nonprofits While my studies are mostly focused on technology and engineering, this module offered a great perspective on social impact. It demonstrated how AI analytics and suggestions can be utilized by mission-driven professionals to solve real-world community problems without compromising ethics, values, or trust. It got me thinking about how the analytical problem-solving skills I am learning now can eventually be applied to help local communities and work for the greater good.

Conclusion

Overall, completing these four Anthropic courses was a valuable exercise. They helped me transition from casually using AI to understanding how to structure my prompts for better analytical outputs, ensuring I use AI as a responsible, ethical learning tool throughout my college journey.
